ChatGPT, GitHub Copilot, Cursor, Perplexity AI, Amazon Q, Blackbox AI

PROFESSIONAL EXPERIENCE

Tekzee Technologies Pvt. Ltd., React JS Developer 2025 Jun – Present | Indore, M.P.

- Developed high-performance web applications using React.js, integrating REST APIs and RTK for optimized data fetching and state management.
- Created responsive UI components with React.js and Material UI, improving cross-device compatibility and user experience.

Stack Infinite Pvt Ltd, React JS Developer 2024 Jun – 2025 Jun | Indore, M.P.

- Built scalable frontend modules using Next.js and TypeScript, improving application performance through component optimization.
- Implemented RTK Query for efficient state management, reducing redundant API calls and improving data fetching.

Quintus Tech Pvt Ltd, React JS Developer 2024 Apr – 2024 Jun | Indore, M.P.

- Created reusable UI components using React.js and Material UI, improving development efficiency and ensuring responsive user interfaces.
- Integrated REST APIs for dynamic data rendering and improved user experience.

Zolute Technology & Consulting Pvt. Ltd., React Js Developer

2022 Sep – 2023 Sep | Indore, M.P.

- Developed responsive web applications using React.js, JavaScript, and REST APIs.
- Improved frontend performance by implementing lazy loading, code splitting, and component optimization, ensuring compatibility across major browsers.

EDUCATION

Christian Eminent College, M.Sc. [Mathematics]

2019 – 2021 | Indore, M.P.

Christian Eminent College, B.Sc. [CS]

2016 – 2019 | Indore, M.P.

PROJECTS

Intellimax

Built a modern, responsive website for Intellimax , highlighting services and products with interactive design and smooth user experience.

PSL (Prataap Snacks Limited)

- Developed React.js WebView modules for mobile applications enabling real-time data synchronization via REST APIs.
- Implemented dynamic UI rendering to support inventory tracking and operational workflows.

Vyapaar vistaar

- Built frontend modules for a distribution management platform used in the FMCG sector.
- Developed real-time inventory management features using React.js and REST APIs to streamline supply chain operations.

Purehug

- Built React.js WebView modules integrated into the Purehug mobile application.
- Implemented Billing and Order Management workflows using structured state management and REST APIs.

Stack Infinite

- Developed a modern, high-performance company website using Vite.js and TypeScript, focusing on scalability, fast build performance, and optimized frontend architecture.
- Built responsive UI components and dynamic pages, improving user experience and ensuring seamless performance across devices.

Voso Vyapar

- Developed a comprehensive e-commerce management platform for businesses to manage products, inventory, and online sales efficiently.
- Implemented inventory management features and customizable storefront pages using React.js, enabling sellers to create personalized websites and improve online product visibility.

FAWZ

- Developed a wholesale footwear e-commerce platform enabling retailers and resellers to purchase products in bulk with flexible order quantities and competitive pricing.
- Built responsive product listing pages with detailed product descriptions, size guides, and dynamic UI components using React.js to enhance user experience and simplify bulk purchasing workflows.

EMS Partner Portal

- Developed a merchant onboarding platform enabling third-party businesses to apply for loans.
- Implemented secure document upload and verification workflows using React.js.
